Guide Tours

Product name	Simultaneous interpretation system, Wireless tour guide system, One way radio guide, Tour guide system for visiting
Frequency Range	72 – 76 MHZ
Application: Focus on Tourism industry	Museum, school, training, horse rider training, outside travel group, Hajj, church, meetings, etc.
Channels	100 Channels
Operating(talk) Range	Up to 200-300meters (line-of-sight, outdoor or indoor)
Transmitter (one-to-one, or one-to-many)	One Transmitter can cover hundreds of pcs Receivers.
LCD Display	Backlit LCD display

MIC type	Headset MIC or collar MIC (optional)
Earphone type	One side Earphone or disposable Earphone
Charger boxes	32-slots, 60-slots charger boxes
Color	blue, iron-grey
Battery model	With built-in lithium battery
Battery time	15-20 hours after charge fully
Logo	Customized free, OEM or ODM
With free lanyard	If quantity is big, can print logo on the lanyard
Switching Bandwidth	12MHz
Channel Grid	250KHz
RF Output Power	10mW
Sensitivity: Approx	Approx.-102dBm
Frequency Response	50Hz~12KHz
Oscillation Mode	PLL Synthesized
Service life	5-10 years
Certificates	CE, ROHS
Dimensions	66X 17x49mm
Weight	50g
